

STATUTE WARNINGS

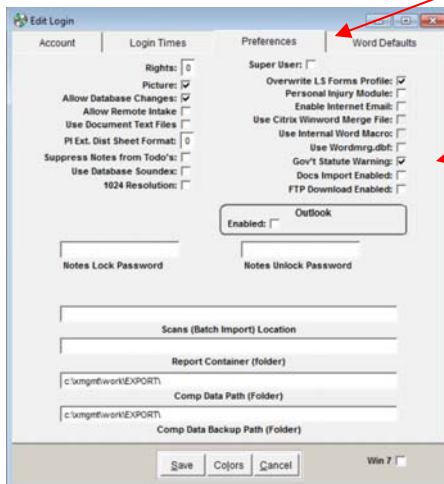

Specific workers can get notification of upcoming statutes every time they log into the Tritex system.

To turn on the statute notification for an employee, Select SETUP and then LOGIN from the opening screen. From the list displayed, select the workers login that you want to be notified.

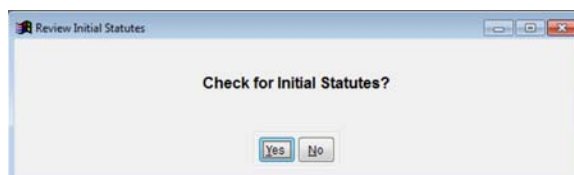

Note: this must be done for each employee that should be notified

Make sure that the preferences are displayed.

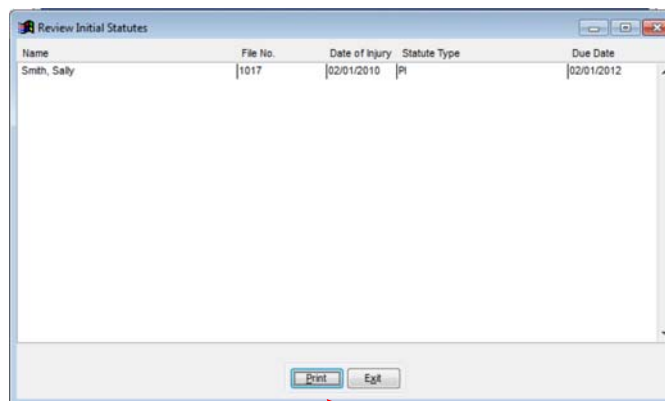

Check off the box that is indicated as Gov't Statute Warning. (this will give warnings on all statutes)

Now when the employee enters Tritex, the statute warning question is asked.

Select YES and the report is displayed.

Name	File No.	Date of Injury	Statute Type	Due Date
Smith, Sally	1017	02/01/2010	Pi	02/01/2012

Print Exit

The report displays the client name, file number, date of injury, Statute type and Due Date. The report may be printed from this screen by selecting PRINT.
